Cup

Jammers of the world,

Thank you for coming to Frisbeer again! This time I'll keep it short so you can enjoy better things that Prague and our tournament have to offer. After successfully finishing Frisbeer's first decade last year, it is time to move forward! We are going to take the best out of our tournament and spice it up with some new exciting changes like the challengers open pairs division, the battle, fixed judges, new judging system for coops etc. We believe you are going to enjoy these new changes and that you will have a memorable weekend!

In this digital booklet you can find all the important information like schedule, directions, important contacts and other useful stuff. And you can have it by yourself all the time in your smartphone without needing an internet connection. Just to be sure, you will also find this booklet printed in your player's package. Please, read the booklet first before you start asking Frisbeer staff ;)

Enjoy your time in Prague and see you on the jamfloor!
